**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Final Rejection***

**The Status of Claims**

Claims 11-17 are pending.

Claims 11-17 are rejected.

**Claim Objections**

The objection of Claim 8 has been withdrawn due to the modification made in the amendment.

**Claim Rejections - 35 USC § 112**

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

The rejection of Claims 4, 9 and 10 under 35 U.S.C. 112, second paragraph, has been withdrawn due to the modification of the claims made in the amendment.

**Claim Rejections - 35 USC § 102**

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 1625

The rejection of Claims 1-4, 7 and 9-10 are rejected under 35 U.S.C. 102(b) as being anticipated clearly by Covers et al (EP0075356) has been withdrawn due to the modification of the claims made in the amendment.

**Claim Rejections - 35 USC § 103**

1. Applicants' argument filed 4/20/07 have been fully considered but they are not persuasive.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The rejection of Claims 11-17 under 35 U.S.C. 103(a) as being unpatentable over Covers et al (EP0075356) in view of Castelijns et al (EP 0518412)..

The rejection of claims 11-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Covers et al (EP0075356) in view of Castelijns et al (EP 0518412) has been maintained with reasons of the record on 1/23/07.

**Applicants' Arguments**

Applicants argue the followings:

- a. Nothing in the prior art would suggest that HCl from the first stage was employed in the second stage; therefore, the rejection should be withdrawn.

Applicants' arguments have been noted, but the arguments are not persuasive. First, regarding the applicants' arguments, the Examiner has noted applicants' argument. However, Covers et al expressly discloses the preparation of 2,2-dichlorophenylacetic acid esters by reacting 2,2-dichlorophenylacetonitrile with water and an alcohol in the presence of hydrogen chloride gas, whereas Castelijns et al does disclose the chlorination of phenylacetonitriles for benzyl cyanide using chlorine gas and hydrogen chloride gas. Both processes are related as mutually inclusive species in an intermediate-final product relationship. Therefore, it would have been obvious to the skilled artisan in the art to be motivated to apply Castelijns' et al chlorination method to the Covers et al process. This is because the skilled artisan in the art would expect such a combination to be successful and economical as shown in the prior art. Thus, applicants' argument is not persuasive.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 1625

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
